WELCOME

Our program is for people who want an experience, not just a training program.

CERTIFIED **LIFE COACH** **COLLECTIVE**

The CLCC® program isn't just a course on how to coach--it's also a deep dive into the stories you've been living, the patterns that hold you back, and the way fear quietly shapes our choices until we name it. Yes, you'll learn powerful coaching tools. But you'll also work on your own "stuff"—the internal blocks, survival strategies, and stuck places that you can't coach others through unless you've met them in yourself. We train you to hold space for transformation by first teaching you how to hold it for yourself.

BUT MAKE NO MISTAKE:

- We take an experiential, hands-on approach to coaching. That means you'll learn by doing--not passively reading a slide deck.
- All of our graduates complete a required number of coach training hours and client practicum hours, as well as pass a final portfolio reviewed by our ICF-credentialed facilitators.
- You won't be navel-gazing. We believe in evidence-based standards. You'll be immersed in different coaching modalities and coaching competencies and how to apply these skills with your clients.

WHO SHOWS UP, HERE?

We've trained coaches from all kinds of backgrounds, including newbie and experienced coaches. Most identify with one or both of the following:

The Seeker

You're here for depth. You want to help others transform and also become more of who *you* are, in the process. You're drawn to coaching because you're already the one that people come to when life gets real.

You might be a: therapist, educator, yoga teacher, healer, creative, or guide.

You want to continue your path of learning and growing, **and** you're craving tools to support others ethically, sustainably, and powerfully.

The Corporate Anti-Hero

You work in an organization, and you'd love to bring about change--and you've come to accept that in corporate life, there's only so much you can move the needle. Now what? Corporate has left you feeling a little lost, and you want to feel alive and delighted, without necessarily quitting your job (*though that idea has been tempting...*).

You might be a: manager, HR leader, consultant, or executive.

You want to reclaim who you are, **and** you want a program that respects your time and intelligence by giving you real, evidence-based coaching skills.

WHICHEVER PATH YOU'RE ON, THIS TRAINING MEETS YOU THERE—AND GROWS WITH YOU.

YOU'LL BE EQUIPPED TO IMMEDIATELY START TAKING ON PAYING CLIENTS WITH OUR CLIENT ONBOARDING RESOURCES, EVEN BEFORE YOU GRADUATE.

WHAT YOU'LL LEARN...

Our CLCC® Curriculum Includes Modules on the Following:

BUILD REAL TRUST—YOUR WAY.

Develop your own coaching style so you can connect authentically and attract the right clients. You'll learn how to co-create a strong coaching relationship from the start—without defaulting to scripts or surface-level goal-setting.

FACILITATE DEEP, LASTING CHANGE.

Support clients in making core shifts—changes that stick—rather than chasing temporary fixes. You'll know how to help people clarify their vision, stay accountable to themselves, and reconnect to motivation when the spark fades.

NAVIGATE FEAR—YOURS AND THEIRS.

You'll learn how to coach clients through resistance, stuckness, and fear without trying to “fix” them. And you'll confront your own fears too, so you can show up confidently in sessions—without spiraling over whether you're “doing it right.”

UNPACK INTERNAL NARRATIVES.

Help clients examine the belief systems running their lives—and shift them without bypassing or slapping on forced positivity. This isn't about affirmation culture. It's about building inner awareness and agency.

WORK WITH THE PAST, RIGHT HERE IN THE PRESENT.

We don't separate “therapy = past” and “coaching = future.” Humans are complex. You'll learn how to hold space for what's rising—whether it's a story from childhood or a pattern that's still playing out today. You'll know how to help clients release what no longer serves them, without pathologizing their past or getting stuck in it.

HOLD SPACE FOR EMOTION—ETHICALLY.

You'll be trained in how to coach through emotion: grief, anger, fear, joy. You'll also learn clear protocols for when to refer out, so you're supporting your clients without overstepping your role.

COACH ON REAL-LIFE ISSUES: HEALTH, MONEY, AND RELATIONSHIPS.

Through client-centered inquiry and narrative work, you'll learn how to help clients unhook from long-standing habits around their health, finances, and partnerships—and make empowered, sustainable choices going forward.

YOU'LL ALSO LEARN...

- **How to trust yourself in-session**—and guide clients to trust themselves.
- **Confidently set goals** and run your first coaching session with clarity and ease.
- **Recognize how fear shows up** in different forms for your clients.
- **Coach the whole person**, not just the surface-level problem.
- Create client practices and action steps that **reflect your unique coaching style**.
- Track client progress and **articulate results**.
- Help clients identify and **shift the fear-based habits** that keep them stuck.
- Support clients in **breaking free from old, internalized narratives**.
- Facilitate emotional processing for your clients in ways that **metabolize emotion**, rather than rushing to fix.
- Expand your coaching skills through creative techniques and **structured risk-taking that is ethical**.
- Understand how identity, lived experience, and power dynamics **impact the coaching relationship**.
- Know when and how to **ethically refer a client to another professional**.
- Learn how to **challenge clients with honesty and care**—without shaming or shrinking.

**FOR THOSE WHO WANT TO START A
PRIVATE COACHING PRACTICE,
YOU'LL ALSO RECEIVE MARKETING
AND BUSINESS OPERATIONS
TRAINING--
INCLUDED IN YOUR TUITION.**

“I never imagined that I would gain so much value from my CLCC experience.”

I never imagined that I would gain so much value from my CLCC experience. I knew that it was a best-in-class program that had huge value and return on investment, but what really made the difference was the “people” factor from a well-organized team that truly cares about the participants and brought their own strengths, talents and stories to making us better coaches.

As someone with some coaching experience but no formal training I benefited from the skills, vocabulary and the detailed roadmap that Kate and the CLCC program provides [...] as well as thinking through client communication and care.

Finally, the most valuable things that I gained from the program that I don’t believe any other program can replicate is the relationships and community I’ve gained. From Lead Coaches to my Fieldwork group to my Mastermind team, the program is designed so that everyone has as much support as they want and need.

I was confident that I could build my coaching business without a program, but I heard that CLCC was so high quality that I thought it was worth the investment. I couldn’t have imagined that I would gain so much more than I had hoped, **this was the single best thing I’ve done for myself in years.**

Life

HOME CULTURE STYLE LEISURE ENTERTAINMENT

Knowing that she wanted to provide some sort of assistance to people who were going through rough patches in life, she enrolled herself at the Courageous Living Coach Certification, a US-based life coaching program where the likes of Martha Beck, Oprah's life coach, was one of the mentors. After finishing the 10-month program, she started coaching full-time.

"I DID MY RESEARCH ON MANY TRAINING PROGRAMS. WHAT APPEALED TO ME ABOUT THE CLCC WAS ITS FOCUS ON COURAGE, TAKING RESPONSIBILITY AND BUILDING YOUR LIFE COACHING PRACTICE AS A BUSINESS. WHEN I ENTERED THE PROGRAM, I THOUGHT I WOULD GET THE SKILLS TO BE AN AMAZING LIFE COACH (LIKE KNOWING THE RIGHT QUESTIONS TO ASK AND BEING ABLE TO MOVE A SESSION ALONG IN A WAY THAT FELT ORGANIC AND SUPPORTIVE FOR THE CLIENT), BUT I GOT SO MUCH MORE. I GOT CLARITY AS TO MY STRENGTHS AS A COACH AND AS A PERSON, THE KINDS OF CLIENTS I WANTED TO HELP AND WHAT I WANTED FOR MY BUSINESS. DID I MENTION THE SUPPORT YOU GET FROM KATE, THE LEAD AND MENTOR COACHES AND MY FELLOW CLASSMATES? MAKING THE DECISION TO CHOOSE THE RIGHT TRAINING PROGRAM WAS DIFFICULT BUT THERE'S NO DOUBT IN MY MIND THAT I CHOSE THE RIGHT ONE FOR ME." -- AURORA SUAREZ

A FEW THINGS WE DO DIFFERENTLY...

Starting in 2014, we were the first coach training program to take a holistic and experiential approach to learning the coaching skill-set. While the coaching industry is often stereotyped by either "tough love" or cheerleading and spiritual bypass, we believe in something different: **helping our clients go beyond just goal-setting, and into getting curious about who they are and how to change, from within.**

- **Grow personally, not just professionally.** You'll be using your own development as the basis for learning how to coach others, which means you yourself are growing as you learn.
- **We help you build confidence around taking on paid clients.** Our participants feel confident enough in their skill-set that they start taking on paid clients before they are out of training.
- **You'll learn advanced coaching skills.** We don't use just one coaching modality. We want you to have a wide-ranging skill-set for use with diverse clients, and we help you learn advanced coaching skills and develop your own unique style.
- **We interact with you.** Our training is delivered live from ICF credentialed faculty. We don't just lecture; we know your name and we support you as we give you feedback on your coaching. We maintain a student-teacher ratio of 15:1 and some of our group calls break out into smaller segments.
- **There's no bait and switch.** Everything you need is included in your tuition. No hidden "certificate processing fees." No upsells to unlock what you thought you were already paying for. Marketing + Business resources are included. Other programs? Some advertise a low sticker price to get you in the door—then hit you with extra charges for the actual accredited coursework, or make you pay just to receive your graduation certificate. Others promote their continuing education (CE) curriculum as if it qualifies you for ICF credentialing. (Spoiler: It doesn't.) We don't play games with your money or your goals.

The CLCC training program is Level 1 Accredited by the International Coaching Federation and your graduate certificate is included, with no extra fees.

FAQ - 1

How do I apply?

Check the Table of Contents for our “How to Apply” page.

What if I need to miss a call? Trainees can miss up to 6 hours of training time across the program.

What if I can't make it to the virtual retreat training weekend? Attendance at the virtual retreat is required.

What's the weekly time commitment?

Approximately 10 hours weekly. 4 hours weekly on training calls, leaving 6 hours for homework, swapping sessions with peers, or working with your own clients. See the calendar in this catalogue for a list of all dates.

What's the timeline for completion?

Our skill-set phase is from January through April. During the summer months, you work independently on accruing one-on-one coaching hours that apply to your ICF credential. Some of our participants decide to set up websites and begin taking on paying clients, before they have graduated from the program.

In September, you're completing your final portfolio for review + feedback from our team.

Can I use my CLCC training to get my ACC with the ICF?

Yes. CLCC is a Level 1 Accredited provider. Only Level 1 providers can qualify you to get your ACC with the ICF after graduation, which opens up more options for clients and working in-house at coaching organizations.

Programs that are only “CCE Accredited” cannot offer this to their graduates.

What kind of contact will I have with my peers in the cohort, and the Leadership Team, during training?

We facilitate calls in real-time, use weekly progress trackers with all participants, give every participant 3 private coaching sessions, and we check in with how you're doing throughout training. Expect plenty of contact and support! We use a private communication forum (not a Facebook group) for group communication between our live calls.

What's the teaching style?

We are highly-collaborative, using an experiential model where we help you learn by actually getting in there and doing, with pauses to point out insights or examples that are relevant to the entire group, and lots of modeling.

CLCC students will also be utilizing training resources (books, videos, handouts) to supplement what we do together as a group.

LIFE?**

FAQ - 2

I've already completed training elsewhere, yet I feel drawn to CLCC. Can I join even if I've already received coach training? We've worked with several participants who joined our program to gain additional coaching skills that their first training program wasn't offering. Our program differs from other training programs in that we aren't teaching a topical, formulaic approach to coaching. We're using your personal growth—which means you'll be asked to investigate your own resistance, stuck spaces, celebrations, joys, all of it—as a basis for how you work with clients. We cover some things that other programs might not cover:

- What do you do if a client wants to work on issues from their past?
- What's the difference between the resistant client and the truly “un-coachable” client?
- How do you get to the core belief systems that clients are struggling with?
- How do we hold space for clients when they are experiencing emotions like sadness, anger, or fear?

I'm outside the United States. Can I still participate?

Every year, CLCC has had international participants. We've worked with people from Australia, Belgium, the UK, the Philippines, the Netherlands, Italy, Guatemala, Canada, and more. The retreat training weekend is a required program component, as is live participation on all calls, so make sure it works for your time zone.

Is this training going to train me to help clients who have trauma? All humans experience trauma, and every client you ever coach will be dealing with some level of trauma. In our training program, we will encourage expression of emotion in peer coaching sessions and train our coaches in how to hold space for clients experiencing emotion.

Sometimes people confuse a client expressing emotions such as sadness, with a coach trying to work with trauma. However, they are not the same. Experiencing emotion is a healthy, normal, everyday part of life, and yes, sometimes a client may emote during a session. Someone experiencing emotion such as (for instance) crying does not mean that they are lacking the ability to function in their lives, or that they are traumatized and need a diagnosis.

We are trauma-informed, but we are not offering training for you to help clients with trauma, and ethically, we do not believe coaches should try to work with people to "heal" trauma (that's better for licensed professionals with extensive training in trauma!).

FAQ - 3

What if I change my mind, halfway through the training? Can I quit?

You are always in choice--but if leaving the door open to quit is a strong concern for you, we invite you to take it as a sign that this program is not right for you.

I'm not interested in becoming a coach, but the curriculum looks amazing and I just want to follow along. Can I do that? Yes! Not

everyone who attends this program will ultimately want a coaching business, and may choose to treat this training program as a personal growth experience. With that said, attendance and participation is expected from all participants on our group calls, regardless of whether or not they intend to utilize the program to become a life coach or be certified.

Does this program make me choose a coaching niche? Do I have to have a niche, in order to be a coach?

We don't make you choose a niche, and we don't believe that you must have a niche, in order to be a coach. One of the things that we emphasize is immersing yourself in the curriculum so that you can authentically figure out what you're truly drawn to—which may be a specific niche, or may be no niche at all. Messaging around how you help clients with the problems they face to arrive at the life solutions they desire is often more important than a specific niche.

Calls are Jan-April, and certification is finalized in the fall. What are we doing in from April to the fall? You'll spend that time accruing your one-on-one hours, and putting together your final Portfolio for certification. The ICF requires that you have a certain number of coaching hours accrued for an ACC, so our program supports you in gaining hours. Our portfolio review process is modeled after the ICF portfolio review process, which we believe better prepares our graduates for getting their ACC.

What kind of tech will I need, to join the group coaching calls?

We use a conference call system that allows you to join from anywhere in the world as long as you have a strong internet connection.

For our calls you will need a quiet, private and distraction-free environment. Trainees cannot be in a car, caring for children or multi-tasking in the background, and to minimize distractions for the group, we can't have background noise. Participation is expected.

Are there extra charges for graduation or getting my graduate certificate?

No, unlike other programs, there are no additional charges for becoming certified through CLCC or getting your graduate certificate. We also do not charge you anything extra for an ICF pathway. Our graduates can apply to be credentialed with the ICF upon finalizing all program requirements.

FAQ - 4

Will I interact with everyone, or am I assigned to a group?

We do not silo you within a group; you'll have the opportunity to interact with our entire cohort.

How can you teach everyone, when we're on the phone?

Our virtual call system allows us to see "raised hands" and call on participants (just as you would in a traditional classroom) and we can use it to offer demonstrations, run quizzes, partner people up for practice sessions, etc. We also have a mute button, so that everyone isn't talking over one another.

Every single call has active exercises where you're not just listening--you're doing.

You'll be identifying Core Competencies, tracking session structure, developing custom exercises, receiving coaching, and more.

What are the CLCC's formal certification requirements?

As a Level 1 Accredited training provider through the ICF, our standards are aligned with ICF expectations. Our graduates prepare a 30-minute coaching call, and write a self-assessment of your coaching using the ICF Core Competencies. Our graduation rate has always been 95% or higher and our graduates have successfully secured their ACC credentials from the ICF.

Does this training cover intersectionality or multicultural aspects of coaching?

We are always thinking about how to approach our course content from an intersectional space. We support diversity, equity, inclusion and belonging not just in our training but societally. With that said, our emphasis during training is on the coaching skill-set and this is not an intensive focused around intersectionality. We believe that that work deserves its own space to truly go in depth, unpack, and give it the time and attention that it deserves.

We also feel it's important to say that we are imperfect and always learning more about our own conditioned biases. If you sign up to work with us, expect that there will be times when we or other participants in the program will make mis-steps. Despite doing our best, we cannot guarantee a "safe" space but we do provide a BRAVE space where are open to course-correcting. If you need a guarantee of a safe space at all times, please exercise self-care and choose a different coaching program.

FAQ - 5

Is the homework required? We strike a balance between holding accountability with the coursework, and understanding that you're an adult and don't need anyone checking up on you. Required assignments and deadlines are always labeled as such. Homework for each module goes live in our private portal by Monday afternoon, and is due before the start of our Thursday lesson call each week.

What are some examples of the type of homework assigned? Reading and response questions, listening to a coaching call and offering 4 to 6 sentences of feedback based on the ICF Core Competencies, or trying a new exercise in a peer swap are some examples. Homework varies from week to week and we survey our graduates who tell us that we allow plenty of time for completion.

I have my own life problems. Wouldn't that mean that I'm not really qualified to help others? No doctor is perfectly healthy and no accountant has perfect finances even if they are highly skilled at helping others--there is no "perfect." There's not a life coach out there who doesn't have some place where she gets stuck. The skill-set that life coaches learn is not "how to be perfect," it's how to set a container for, and hold space for, your clients.

In addition, remember that this is why our training includes your personal development. If you're committed to changing the challenges you bring, they will have shifted by the end of our time together. We do believe that if you have an active clinical mental health diagnosis that is not responding to treatment, you should first focus on your own health and well-being, and talk with your therapist about whether or not the program is appropriate for you.

I've heard coaching is all about "tough love." Is this organization about that?

No--but we are about everyone being an adult and taking responsibility for their own lives. As an example, if one of your clients says they want more connection with others, they can't say, "Well, but I'm introverted" and wait for others to reach out, first. It's not "tough love" to state the obvious--that we cannot be the ones behaving in ways that are counter to what we say we want.

In CLCC, the same logic applies. We talk a lot with each cohort about how the things we want (connection, a career we love, better habits) cannot be something we just talk about. It's got to be something we actually put into practice. And, we want to help you practice. That's what we're here for!

Everyone has challenges in their life--the question is whether or not you'll decide to shut down in the face of those challenges, or respond to them as best you can.

We want to support you in that process + many of our graduates find a renewed sense of personal power when they start using coaching tools in their own lives. We don't believe in using "tough love" for behavior change.

TESTIMONIALS

It's hard to express how much my life has changed from this program. I knew I wanted to be a coach, learn how to run a coaching business, and be certified, however, I got more out of the program than I could have imagined. I had been searching for almost 10 years for a coaching certification program. I was working on developing my coaching business and noticed I would get stuck in certain areas. I thought that if I listened to enough podcasts and read enough coaching books that I would figure it out on my own. Sick of trying to figure out everything, I found CLCC. I was scared to make the financial investment because "what if I spend this money and I don't learn anything?" but knew I was sick of not moving forward in my coaching business. With that in mind, I took the chance on CLCC and I am so incredibly happy I did. I figured out what my process is so now I can rely on it to get me through my challenging moments, I found deep connections with others in the program (and created real friendships and potential business partners), and **all the business knowledge/support I gained makes me feel confident I can market myself no matter how my business shifts.** No matter where my life goes, or however I might choose to shift my business, this program has given me back my personal power and I can move forward in my life fully being me.

--Jeanette Raucci

I feel greater love because I feel fully seen. I have brought back so much joy into my life by simply turning things - including work - back into play. Everything has a do-over, and if something goes wrong, I'm not afraid to lean into the hard conversation and figure out how to make it right. Being a coach is just as vulnerable as being a client. It's as scary to ask hard questions as it is to answer them, but unpacking those experiences leads us to even deeper connections. **I feel so honored to be part of a profession that celebrates vulnerability.** - -Nicole Ralston

Finally, the most valuable things that I gained from the program that I don't believe any other program can replicate is the relationships and community I've gained. From Lead Coaches to my Fieldwork group to my Mastermind team, the program is designed so that everyone has as much support as they want and need. I was confident that I could build my coaching business without a program, but I heard that CLCC was so high quality that I thought it was worth the investment, I couldn't have imagined that I would gain so much more than I had hoped, this was the single best thing I've done for myself in years.

TESTIMONIALS

When I signed up for CLCC I thought I was just going to learn how to be a coach and get certified. **I had no idea the breath and depth of the experience I was about to embark on.** From that very first night of the program, at the kick-off retreat, my life and the way I live it, began to change. For the last 10 months we have been educated, coached, supported, loved, encouraged and challenged to show up as the best versions of ourselves, guided to bring our individual talents and gifts to the world. Kate and the leadership team, that have held us close this year, are not just amazing, wonderful coaches, mentors and teachers, **they also really care about us as students and the community we have created together.** I am amazed at all the details that are present in the program to open our minds to a better way of coaching and helping others, especially through the process of learning how to help and understand ourselves first. The connections and friendships I have made in CLCC this year will be for life, they are deep and rich and full. I get emotional thinking about how much support I have received this year, both professionally and personally, on this journey to being a Life Coach. I have so much gratitude for the CLCC program and all that it has given me.

--Sarah Noble

Not only have I learned how transformative coaching can be from the coach's perspective, I have also experienced the transformative power of coaching from the client's perspective. I know how important and powerful the work is from both sides, which makes me a better coach, and a more confident, fulfilled person. The leadership of CLCC are amazingly talented, and the work they have done to create a holistic, experiential program that not only teaches skills but also creates community is unique and life changing. I have benefited so greatly from the connections I have made with my fellow cohort members. They are kindred spirits, and the connections are deep and life affirming.--Bree Overly

I'm not sure I can accurately articulate all the ways in which I've benefited from being a part of CLCC. It has been mind-blowing! I am taking away that I felt loved, cared for, and supported from the get-go at the retreat, and that continues today. I have never in my life felt more advocated for or corroborated with in such a tender, affirming place and from such beautiful people. It actually makes me wonder how I didn't know it was possible to feel accepted and appreciated so fully. I have felt challenged by the curriculum as a new coach in a very 'good way'; like when you have a really sore muscle that needs to stay limber, but yikes, it doesn't feel the best when it is moved or massaged, (and also it 'feels so good'!=). It has felt AMAZING as well as liberating to stretch myself fully! The confidence that Kate, as well as the Lead and mentor coaches, have had in me is exactly what I needed to step out and show up as my most courageous deliberate self. **I am proud of how I have grown personally and professionally making me feel as if I am not the same person as when we started CLCC in January, but a much better version of myself now.** I am equipped with the tools needed to contribute to my life as well as the lives of others in a way that is impactful and meaningful, something I have desired for as long as I can remember. I will also say that I am deeply honored to know the leadership team, my CLCC peers, and to be walking this Oh-so-glorious, deeply moving journey with all of you. I will always feel like you are my people, and I am yours. --Sally DeArmas

TESTIMONIALS

I received such an amazing breadth of training through CLCC. From where I stand today, I recognize how much I have deepened my skills through in-session practices as well as through our field work calls, in addition to having an opportunity to learn how to focus my coaching on the whole person vs. the problems clients identify with, creating long-term, systemic change in their lives. But, I think my greatest takeaway from my time at CLCC is the opportunity to do so much inner-work for myself, as well. For me, this comes from deeply wanting and needing to feel a part of something bigger than myself, to step out of my comfort zone of doing it all for and by myself. Over this time with CLCC, I have been able to lean into the larger community, both as a client, as as a friend. Thanks to my time with CLCC, I feel like I have an extended family, a true team, I can call my own. Although I've heard others say this before, I never really understood its true meaning until my time with CLCC. I am forever grateful for this opportunity and am excited about where this journey is going to lead us all to next. --Kim Romain

CLCC has completely changed my life! **The program has taught me so much about what I am capable of accomplishing when given a strong foundation and a loving community!** The experiential nature of the program has helped me use what I have learned in the weekly lessons to not only make me a better coach but a better person as well! I am so thankful I stretched way outside my comfort zone and signed up for this course; **It's by far the best decision I've ever made!** Thank you team CLCC! --Sandy Engbretson

Some of my favorite things about this program are the retreat weekend where we all jumped in and formed lasting connections, while building a foundation of trust for the coming months work together. **I never thought when I walked into a room with 53 other students that I'd be able to remember all their names, let alone connect to them all and support them, but this program does that.** What I learned in my own growth process during this time has been invaluable. I did the hard things, and my CLCC team cheered me on. I also appreciated the care and thought that was built into this program anticipating what felt like everything that came up along the way at the exact time I needed it. And lastly I appreciate **the support ...that actually apply to this field to set us up for success.** Kate and the leadership team lead from compassion, integrity and love. I'm so proud to be in the CLCC 2020 class, during a pandemic no less!

TESTIMONIALS

Having researched extensively for a Life Coach Certification Program that offered everything I imagined, I am forever grateful I came across CLCC. Kate Swoboda and her team instantly created a welcoming space for me right from my initial screening call. **I am wildly introverted and yet, at every step of the way I felt heard, seen, accepted and most importantly, respected for who I am.** The team offers gently nudges to keep me going while simultaneously granting space and autonomy to achieve my goals. I now have a community for life. --Stacy Luck

I didn't think this kind of community was possible. I've been disappointed before when communities that claimed they would welcome and love me for who I am criticized me and tried to "fix" me as soon as I showed myself to be anything other than their idea of perfect. Everyone in CLCC has been so generous with their love and support, right from that very first night we met. This might be the first time in my life that I've been able to start believing that there are people who actually want to see me for who I am and can love me for who I am instead of just wanting me to meet their expectations. I know there are other people in my life who do want to see me, but my CLCC family is helping me believe it. And that changes everything. My time in CLCC has deepened my trust in myself. I've had a tendency to avoid trying new things when I wasn't sure I'd be able to do them well right away. CLCC has provided such a safe, supportive environment as I practice all the new skills I'm learning. Stretching myself within the program has built my confidence and this increased trust is carrying over into all areas of my life. --Johanna Schram

As an experienced coach, I wasn't sure how much I would get out of the Courageous Living Coaching Certification program. Kate and the philosophy seemed to really resonate, but did I actually need more training? Now, at the end of the program, **I can tell you that my investment was 100% worth it,** and I was blown away by these aspects: the deep educational components about psychology and neuroscience, the practical and effective exercises you can use immediately with clients, and the hands-on love and support you get from the entire program team and cohort. Kate and the CLCC Leadership Team walk their talk, and are devoted to equipping you with the tools and knowledge to be a marvelously skilled practitioner. **If you're not sure, take this as your sign: you aren't getting a better value coaching training program anywhere else on the planet.** --Lisa Lewis

Thanks to CLCC, **I've gone from having never coached a client to being able to confidently coach others on a regular basis.** I've gained so much experience, been exposed to many different ways to coach, learned how to hold space for clients and build trust with them, and what to do when a session feels like it is not working. When I first considered signing up for CLCC, the registration period was not open. I put myself on the waitlist, and then over the next few months gradually let the idea of coach training fall away, rationalizing all the reasons it would not work and I shouldn't do it. Was I really going to leave my job to become a coach? Did I really have what it takes to help somebody else? (I don't even have my own stuff together - how could I help somebody else???) Then, I got the email from CLCC that the registration for the next class was open. I read through the materials and again felt an incredible pull toward this program. After a lot of internal pushing and pulling, after getting up the nerve to talk to my husband about this and work out the details of whether we could make it work, I finally let the feeling that I really, really..... REALLY wanted this to have its say, and I jumped. I applied, got accepted, and then figured out how I'd work the training in around my marriage, my family, my very full time job. It was a big commitment, it was overwhelming at times.... and **it was without a doubt one of the best things I've ever done in my entire life.** --Kris

I had no idea how much the CLCC program would change my life. I started it with the intention of helping others and came out of it with all the tools and training to do just that AND I had the support and team available to help me walk through some hurdles myself that were holding me back from being my most courageous self! I'm so very grateful I took the step forward. --Kate Frakes

WE BELIEVE...

in the power of coaching. that courage is where it's at. that marginalized voices deserve to be heard. in what you're capable of. in you. that expanding who you are gives you the capacity to empower others. in evidence-based behavior change. that there is magic in being unstructured. that profound personal change can take place in the workplace. that coaching skills can be applied to social change movements. in creating brave spaces to work through conflict, rather than pretending we can bubble wrap our lives from discomfort. that we all deserve to have careers that we love. that connecting as a community is the backbone of our growth. that self-responsibility is potent. that creative expression is truth-telling. that sometimes, only the f-bomb will suffice. that sometimes, gentleness has more impact than profanity.
